Securing global energy
Bergen, Norway 13-15 June, 2023

Student Abstracts at UTC 2023

UTC invite students from all parts of the world to deliver abstracts for consideration. We are interested in student projects at Master or PhD level (including 2022 graduates) in the field of subsea technology. The student presentations will be included in the technical presentations at the conference June 15th. The featured students will be included in the conference program, receive complimentary conference fee, and flight and hotel accommodation for the duration of the conference. To enable as many students as possible to propose an abstract we will accept contributions until **April 26th 2023.**

Please submit your abstract here

Your student paper/presentation could be connected to one of the chosen topics for UTC 2023, or another topic connected to subsea technology.

Please visit the presentation portal to read the student abstract guidelines
